

## IBM Cognos Analytics Year-End Starter Package!

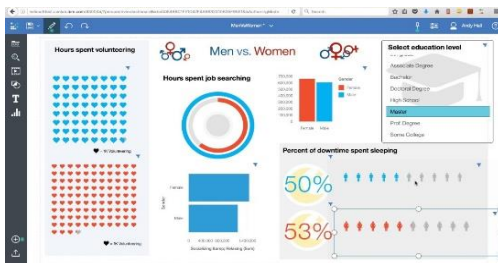

TechD is pleased to offer the opportunity to install a new instance of IBM Cognos Analytics for as little as \$6,000, plus the cost of licenses. This offer includes installation of IBM Cognos Analytics, connections to your data sources, as well as standard user training. Additional instances, customizations, and cloud options are available, on a per project/instance basis, and will be priced accordingly. This limited-time offer is only available until March 31, 2018.

### Why Cognos Analytics?

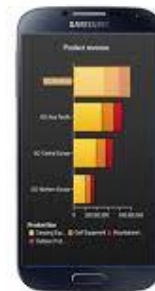

IBM Cognos Analytics provides an interactive, scalable solution for virtually anyone in your organization to find, explore, and share data-driven insights, through a governed BI platform. This allows you to confidently and quickly take actions to improve business performance.

By installing IBM Cognos Analytics today you will benefit from:

- **Smarter Self-Service** through a fast, intuitive user interface with new functionality for business users to upload data, join sources, and author reports without IT assistance
- **Improved Visualizations** and Animations in Dashboards and Storyboards including enhanced mapping with longitude-latitude, that can be easily created using drag-and-drop

- **Consistent, web-based, mobile-ready platform**, on or offline, allowing for consumption AND authoring on ALL devices

- **Proven, scalable AND governed platform** with permissions and controls to protect your data at all levels
- **Flexible deployment** options including traditional on-premises, Software-as-a-Service, or both in a Hybrid environment, that can connect to all of your data sources
